Inpatient and daycase survey results
October, November and December 2014

During October, November and December of this year inpatients and day case patients were asked the following questions by our PALS volunteer:

- Have you slept in single-sex accommodation?
- Did you have access to single-sex bathrooms and toilets?
- Was your privacy maintained by the use of curtains, screens and appropriate clothing at all times?
- Was your permission obtained before entering any private areas, ie, curtains, bathrooms, cubicles?
- Was your dignity and modesty maintained for you when you had to go to different departments in the hospital?
- Do you feel you have been treated with dignity and respect during your stay?
- Do you feel that you have been adequately informed about the medication/s you are taking and any possible side effects?
- Were you given enough privacy when discussing your condition or treatment?
- Were you involved as much as you wanted to be in decisions about your care and treatment?
- Did you find someone on the hospital staff to talk to about your worries and fears?
- Did hospital staff tell you who to contact if you were worried about your condition or treatment after you left hospital?

Every patient answered “yes” to the above questions.
